KEVIN MARONEY

Data & AI Leader · Enterprise & Global Scale · Director-Level

Mendham, NJ | 908.577.6672 | kevin.m.maroney@gmail.com | marones13.github.io

Director-level data and analytics leader with 12+ years across Fortune-level financial services, high-growth global media, and large-scale consulting. Strength at the intersection of platform engineering, analytics, product-facing AI, and operating model — aligning what ships with what the business actually uses.

Belief: clarity of vision, T-shaped judgment, and unusually strong questioning beat heroics; build teams and systems that reward imagination, depth on demand, and retained top talent.

EXPERIENCE

Data & Analytics Lead, Investor Relations **2025 – Present**

The Carlyle Group · New York, NY

Lead data and analytics strategy for Investor Relations alongside client-facing and product leadership (Global Wealth & Institutional). Co-sponsor TEMPO, the firm's AI-native initiative for how IR insights are produced and consumed.

- Unified IR roadmap across use cases, consumption patterns, transformations, and source systems — from technical delivery to channel priorities.
- Shipped **Darwin**, an agentic dbt + Cursor workflow: ~50% faster from requirement to merged PR; integrated Jira, GitHub PRs, automated testing, and Confluence product docs.
- Built unified IR semantic layer (dbt) on Snowflake; integrated third-party / CRM-aligned entities (e.g., Preqin onboarding with entity resolution).
- **TEMPO / AI layer:** MCP-style orchestration for LLM tools; onboarded Claude with reusable IR skills; delivered LP Compass (LP scoring & targeting), Next Best Call (Salesforce, GW), and Redemption Risk (behavioral propensity).

Impact: 50% reduction in requirement-to-PR cycle; 120% WAU lift (Institutional Suite); firm-wide business impact under measurement.

VP, Data Analytics & Data Engineering **2024 – 2025**

ESL FACEIT Group (EFG) · New York, NY

- Built "The Vault" — Snowflake + dbt + Tableau — tripling business use of analytics post-merger.
- Deployed conversational AI for self-serve access; ~25% fewer ad hoc reporting tickets.
- Led 23 analysts and engineers across regions; pod model with 90%+ stakeholder satisfaction.
- Valuation framework for monetizable broadcast moments — $4M+ Gross Media Value identified.

$4M+ GMV · $750K incremental ad revenue · 25% reporting reduction · 90%+ satisfaction

Senior Director, Data & Analytics **2021 – 2024**

Keyrus — Apollo Global Management (client engagement)

Apollo Global Management

- Owned CPS distribution data strategy end-to-end — architecture, prioritization, and adoption for the firm's first enterprise data product suite.
- Designed cross-functional operating model with CPS COO across Data, Digital, and Enablement.
- Client / product MDM across 7+ sources (CRM, portfolio, ops); extended analytics into private credit risk views.

8% shorter sales cycle · improved CPS budget/AUM ratio · first cross-channel visibility

Senior Director, Data & Analytics **2017 – 2020**

Keyrus — T. Rowe Price (client engagement)

T. Rowe Price

- Delivered MVP Snowflake platform in six months; rolling 12-month roadmap on people, process, and tech.
- Partnered with Sales on coverage and tiering; migrated legacy analytics with modern modeling.
- Enterprise data landscape mapping; stood up governance with sustainable operating cadence.

85% WAU · ~1,200 hrs/yr saved · +25% forecast accuracy · +30% attribution accuracy

Senior Director — Internal Leadership & Delivery **2013 – 2024**

Keyrus · Also: BNY (2016), Bank of America (2013–2015)

- Directed portfolios exceeding half of Americas delivery revenue; cross-vertical analytics and transformation.
- Led 20+ consultants; coached senior leaders; culture built on direct feedback.
- CDO- and C-suite-facing strategy, roadmaps, and embedded team design; periodic CEO-of-Americas staff on growth.

SKILLS

AI & agentic

MCP architecture, agentic workflows (Darwin), LLM deployment, Claude / Anthropic, OpenAI, Gemini

Data platform

Snowflake, Databricks, dbt, Fivetran, Airbyte, Airflow, AWS, Azure, streaming, lakehouse / vault / mesh modeling

Engineering & governance

Python, SQL, GitHub, CI/CD, lineage, Jira, Confluence, Semarchy, Metaplane

Leadership & delivery

20–30 FTE global data orgs; regulated & client-facing domains (investment, IR, distribution); COO partnership; platform strategy; operating model design

BI

Tableau, Power BI, Looker, Qlik, Alteryx

EDUCATION

B.S. Finance — Lehigh University, Class of 2013
